- Record Detailed Session Notes for Future Follow Up
- Automatically Re-Dials Contacts based on Follow Up Date
- Pause or Continue Dialing During Transfer Session

• The Tele-Messenger Ultra Contact Manager Pro is designed to be a powerful Single Live Agent Automated Dialing Management System, and builds on the core of our top of the line Tele-Messenger Ultra Dialer. Contact Manager Pro takes advantage of all the advanced setup and operating functions of the Tele-Messenger Ultra, and adds a Live Single Agent Contact Manager Station. The Contact Manager Pro is designed to import your existing Phone Data, or begin new prospecting using our pre-loaded phone calling lists. Voice Scripts can be set to transfer live respondents directly, or pre-qualify your listeners, and speak only to those with interest in your product; including the ability to automatically leave messages on answering machines or voice mail... a powerful marketing tool! Each customer record includes a section to maintain detailed Session Notes with current and prior contact information, as well as a future Follow Up Date. Contact Manager Pro can automatically redial your contacts based on the Follow Up Date you establish... no need to query or remember when you need to re-contact an important prospect!

• Contact Manager Pro allows you to call hundreds or thousands of existing or new contacts each day, utilizing the most advanced Call Management System available. Tele-Messenger does all the work for you, leaving you to concentrate on what you do best... communicating effectively with your existing and new contact base! Best of all, Contact Manager Pro converts to a powerful automated dialing system in just seconds, providing maximum effectiveness in all your marketing and notification efforts.

• The Tele-Messenger Contact Manager Pro System is a powerful Contact Management Dialing System which allows you to automatically stay in touch with all your important Contacts, and develop new Prospects. Built on the core design of our Tele-Messenger Ultra Dialer, CMP can keep you in touch with your critical Clients with our exclusive automated "Follow Up" Manager. Each Contact Record contains Notes entered from prior Sessions which "Pop" on the screen as your Contact Transfers. When you are ready to develop new Prospects, Contact Manager Pro converts to an advanced Contact Development System (or Voice Broadcast Auto Dialer), delivering only pre-qualified Prospects. And you can record your personal message to answering machines and voice mail. Contact Manager Pro is the ultimate culmination of our years of expertise in the Voice Broadcast and Contact Development Industry.
